## Junior Athletic Amateur Program Well Attended

An excellent crowd was on hand Friday evening to see local talent perform at the Carbon Junior Athletic Club's Amateur Night. Despite the small number of entries, due mainly to the cold weather previous to the day of the program, the evening was enjoyed by all. Following are the winners in the various classes:

Junior Group Singing: Shirley Schuler, Gail Schlierer, Myrna Hay, Dale Gmbel, Albert and Michael Charlebois.  
Junior Solo: 1st, Barbara King; 2nd, Wayne Garrett.

Senior Group Singing: 1st, Shirley Hay and JoAnne Ohlhauser; 2nd, Nova Buyer, Rae Malers, Myrna Schell and Ellen Harsch.

Senior Solo: 1st, Frank Smink; 2nd, Don Gordon.

Junior Instrumental: Gordon Simon.  
Senior Instrumental: 1st, Marily and Audrey Martin, duet; 2nd, Audrey Martin, solo.

A humorous sketch of a hill billy wedding, with a cast of Carbon school students drew laughter from an appreciative audience, and was the concluding number on the program.

Alf Holvik was the lucky winner of the magazine rack in the draw made following the program.

## Curling Gets Early Start

Curling was off to an early start this season with enthusiastic wielders of 'besome' and 'stane' soopin' 'er up Tuesday evening in the first games of the square draw. A record number of 21 rinks is entered in the regular schedule and one more man is needed to complete another. Following is a list of the rinks:

Frank Pierson, Al Barnes, Ray Mancell, Roman Ohlhauser.

Pat Poole, John Buchner, Stan Gouldie, Oscar Gackle.

Sam Garrett, Dick Garrett, Bob Garrett, Bill Thorburn.

Sid Cannings, Stan Torrance, Bruce Gilbert, Don Gordon.

Len Poxon, Francis Poxon, Dale Poxon, Ed Foster.

Leon Coates, Hartley Hay, Jim Bushby, Lindsay Hay.

Claude Cressman, John Diede, Howard Hunt, Wray Wright.

Jack Barr, Morris Switzer, Tom King, Theo Harsch.

Walter Permann, Emil Rempfer, Gordon Bramley, Dave Pearson.

Norman Nash, Chris Thumler, Earl Morgan, Gordon Mancell.

Joe Appleyard, Leo Brown, Chris Diede, Bill Robertson.

Gottlieb Schell, Leo Ohlhauser, Ben Schuler, Earl Ohlhauser.

Norman Ohlhauser, Arnold Martin, Tom Heath, Ed Cannings.

Ted Schmidt, John Reid, Archie McLeod, Alf Holvik.

Dave Gleck, Fred Ohlhauser, Arnold Ohlhauser, John E. Ohlhauser.

Bob Shaw, Rev. J. W. Way, Harold Bramley, Murray Saunders.

Bill Ross, Jack Barnes, Jack Brown, Paul Permann.

Robbie Marshman, Emmett Foster, Ray Zachariassen, Merle Marshman.

Leo Halstead, Vic Luft, Keith Halstead, Lloyd Halstead.

Wilf Skerry, Bob Knecht, John Schmidt, George Appleyard.

Jim Foster, Roy Kary, Evone Foster, Ilene Schmidt.

Spares: Jack Barber, Harvey Laybourne, Reuben Ohlhauser.

## World Championships Won

## Exhibitors From The West Do Well At Royal Winter Fair

TORONTO. — Thirteen-year-old Ricky Sharpe, of Munson, Alta., won one of agriculture's most honored awards — the Royal Winter fair's world wheat championship. It is the first time in the history of the fair, founded in 1922, that a junior has won this championship.

Ricky, member of the Drumheller junior grain club, last year won the junior wheat title and the reserve grand championship. The 1949 world wheat crown went to Mrs. Amy Kelsey, of Erickson, B.C., who placed sixth this year.

P. J. Rock of Drumheller, livestock exhibitor, said Ricky "has the size and bounce of a rabbit and is as sharp as a cricket." He grew his world champion sample of Thatcher wheat on a 3 1/2-acre plot on his father's farm, eight miles from Drumheller.

Mr. Rock said Ricky's father had also been a member of the Drumheller grain club when he was a boy and the family had for years been intensely interested in producing top-quality seed grain.

Other western exhibitors winning world championships were: John Eliuk of Hairy Hill, Alta., on his exhibit of Victory oats. Mr. Eliuk also won the oats championship last year. Chris Morck, of Dickson, Alta., won the world's rye championship, and Albert Kessel, of Rosetown, Sask., the world's barley crown.

Mr. Morck succeeds Mr. Kessel as rye king.

Mr. Kessel won the reserve championship in rye this year.

With the rye award goes the Par-

rish and Heimbecker Ltd. challenge trophy and a cash prize of \$100.

Mr. Kessel succeeds John Eliuk of Hairy Hill, Alta., who was the 1949 barley champion.

The bachelor-farmer took a third award at the 1950 fair when he won the grand championship in flax. This award is not a world title.

The reserve grand championship for wheat also was won by a member of the Alberta junior grain club. Howard Roppel of Rockyford won the runner-up award for his sample of Marquis wheat. Matt B. Schnerr, of Sanguan, Alta., was the reserve oat winner.

REGINA. — Reports of results of judging at the Toronto Royal Winter fair show that Saskatchewan entries did exceptionally well.

Louis Wendell, Neudorf, had a sample of Canadian Thorpe barley which won fourth place in the two-row barley class. He also had the reserve champion entry of flax, Redwing variety. His son, Leroy, also of Neudorf, was in ninth place with a sample of Royal. R. P. Robbins, Shaunavon, won fifth prize with a sample of Victory flax.

Saskatchewan grass seed carried away most of the best prizes. The first four awards in crested wheat grass went to men in this province. R. E. McKenzie, Swift Current, was first; Leroy Wendell, second; H. M. Guillot, North Battleford, third, and Louis Wendell, fourth.

Leno Del Frari, Cutknife, won first prize for brome grass seed and Lorne McCaig, Rutland, was in second place. Sixth to ninth prizes were won by Valde Jackson, Elfros, H. E. Brathen, Carruthers, Roy Perrin, Maple Creek, and Grant Andrews, Cutknife. Marshal Weisner, Cutknife, was in 11th place.

TORONTO.—Two youngsters from Borden, Sask., won a beef judging championship contest in conjunction with the fair.

Donald Dyck and Algar Thiessen were the winners in the competition conducted by the Canadian council on boys' and girls' work. They piled up 1,033 points, defeating teams from every province except Newfoundland.

Second place went to Vernon Butterfield and Roy Vold, from Ponoka, Alta., with 1,019 points.

Saskatchewan teams placed second in dairy cattle, swine and poultry judging contests.

Muriel Haight and Murray Haight, of Saskatoon, placed second to Molly Bennett and Mary Armstrong, of Spencerville, Ont., in dairy cattle. Donald Ford and Leslie Walker, of Golburn, Sask., were second to William Ferguson and Richard Van Camp, of Nestleton, Ont., in swine judging.

In the poultry classes Jean Oliver and Ruth Haight, of Saskatoon, finished five points behind the winners, Mary Matheson and Millen Johnston, of Binscarth, Man.

In the seed grain project, Arnold Brackenridge, of Millbrook, Ont., and Harold Hammond, of Bowmanville, Ont., combined to place first.

The Manitoba team of John Bulled and Firmin Michiels, both of Holland, was second.

The Quebec team of Jean Paul and Jean Guy Cote, both of Neuville, won the garden project, with Glenn McLeod and Baudoine Korne, of Oakbank, Man., second. 2908

## Funny and Otherwise

The boy's mother found him bawling in the basement.

"Willy, darling, what's the matter?"

"The hammer fell on Daddy's foot," sobbed Willy.

"Why, honey that's nothing to cry about."

"I didn't cry," whimpered Willy.

"I laughed."

Forecasting the coming styles, the fashion editor wrote: "There will be little change in men's pockets this year."

Man (to friends)—So your son went to college? How is he making it?

Friend—He isn't. I'm making it, and he's spending it.

One day a piano tuner was boasting about his twin sons.

"How do you tell them apart," asked Mrs. Miller.

"All I have to do is pinch them," he replied. "Herbie yelps in high C, and Willie is a full tone lower."

Manager: "Martin says he can't live on his salary."

Proprietor: "Nobody can, but everybody does."

The beauty of the old-fashioned blacksmith was that when you brought him your horse to be shod, he didn't think of 40 other things that ought to be done.

Two modern youngsters were discussing the subject of piggy banks.

"I think it's childish to save money that way," little Mary opined.

"I do too," Annie replied, "And I believe also that it encourages children to become misers."

"And that's not the worst of it," Mary exclaimed. "It turns parents into bankrobbers."

## SOUTHWEST SASK. FARMERS MAY DELIVER ANYWHERE

WINNIPEG.—The Canadian wheat board announced that farmers along three railway lines in southwestern Saskatchewan now may deliver grain to any elevator where space is available.

Lines involved are the C.P.R. line from Cadillac to the Alberta boundary through Scotsguard, Shaunavon and Consul; the Val Marie line; and the line southwest from Swift Current to Simmie, via Duncarn.

Delivery points include: Admiral, Bracken, Cadillac, Canuck, Claydon, Climax, Consul, Crichton, Divide, Dollard, Duncarn, Dunelm, Eastend, Frontier, Govanlock, Instow, Loomis,

## Canadian Sugar Production Sets 29-Year-Old Record

OTTAWA.—Canada's sugar refining industry in 1949 had its best year since 1920.

The value of production last year, the bureau of statistics reported, totalled \$116,767,000 against \$113,511,000 in 1948 and \$119,087,000 in 1920. Cost of materials came to \$90,172,000 against \$88,031,000 and \$103,689,000.

Production of sugar of all kinds in 1949 was 1,385,912,000 pounds, compared with 1,358,139,000 in 1948.

Masefield, Orkney, Ravenscrag, Robsart, Scotsguard, Senate, Shaunavon, Simmie, Southfork, Val Marie, Vesper, Vidora, Wyatt.

## Luscious HONEY BUN RING

Quick to make with the new Fast DRY Yeast

Hot goodies come puffin' from your oven in quick time with new Fleischmann's Fast DRY Yeast! No more spoiled cakes of yeast! No more last-minute trips — this new form of Fleischmann's Yeast keeps in your cupboard! Order a month's supply.

HONEY-BUN RING

Scald 3/4 c. milk, 1/2 c. granulated sugar, 1 1/2 tps. salt and 1/4 c. shortening; cool to lukewarm. Meanwhile, measure into a large bowl 1/2 c. lukewarm water, 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Royal Fast Rising Dry Yeast. Let stand 10 mins., THEN stir well.

Add cooled milk mixture and stir in 1 well-beaten egg and 1 tsp. grated lemon rind. Stir in 2 c. once-sifted bread flour; beat until smooth. Work in 2 c. (about) once-sifted bread flour. Knead on lightly-floured board until smooth and elastic. Place in greased bowl and grease top of

dough. Cover and set in warm place, free from draught. Let rise until doubled in bulk. Punch down dough and roll out into an oblong about 9" wide and 24" long; loosen dough. Combine 1/4 c. lightly-packed brown sugar and 1/2 c. liquid honey; spread over dough and sprinkle with 1/4 c. broken walnuts. Beginning at a long side, loosely roll up like a jelly roll. Lift carefully into a greased 8 1/2" tube pan and join ends of dough to form a ring. Brush top with melted butter. Cover and let rise until doubled in bulk. Bake in moderately hot oven, 375°, 45-50 minutes. Brush top with honey and sprinkle with chopped walnuts.

## U.S. Congress Ignores Defence Chiefs On St. Lawrence Power Development

Long Sault Rapids on the St. Lawrence are now by-passed by freighters via Soulange canal. St. Lawrence seaway development would make the river a vast inland artery for ocean vessels, provide millions of kilowatts of electric energy.—Central Press Canadian.

By H. D. CRAWFORD  
(CPC Correspondent)

WASHINGTON.—Survival of free men in North America will be the grim and realistic issue if an enemy invades this continent and blasts our Canadian and U.S. cities. With this in mind, you cannot weigh the defense problems facing Canadians and Americans without including defence aspects of the Great Lakes-St. Lawrence Deep Waterway.

Defence leaders in the United States have given Congress many important reasons why development of the navigation and power potentials of the St. Lawrence river are vitally important for the continent's security.

The Senate has chosen to look the other way, however, and the powerful, highly paid lobby groups, representing foes of the St. Lawrence seaway and power project—selfish regional business interests—have this far managed to manoeuvre proposed legislation off the floor of Congress.

Canadian leaders have gone as far as they can diplomatically to make clear to Congress and other leaders in the United States that they are anxious to see the long-discussed St. Lawrence project get under way.

Some Canadians politely but firmly lay aside the silk gloves of diplomacy when you talk with them, as I did recently in Ottawa, and tell you frankly that they think it extremely unfair that a few selfish business interests in the United States should be allowed to deprive the Canadian and American peoples of all the benefits both might derive from the navigation and power developments on one of the greatest inland waterway systems in the world.

President Truman said in his budget message to Congress this year: "I repeat most emphatically my previous recommendations for approval of the St. Lawrence waterway and power project. Authorization of the seaway, with its related power facilities, is a matter of urgency for our peacetime industry and our national security."

"In particular, each succeeding year reduces further our domestic reserves of iron ore, and increases correspondingly the importance of the seaway as a means of economical access to the proven ore deposits in Quebec and Labrador."

Prime Minister Louis St. Laurent summarized the prevailing Canadian feeling and official policy about the St. Lawrence project recently when he told an audience in upper New York state:

### HERE'S HEALTH

Cinderella's shoe of glass,  
In the short-and-too-tight class,  
Probably in later years

Brought her bunions,  
aches and tears.

Dept. of National Health and Welfare

"Those of us who live in the St. Lawrence valley and the basin of the Great Lakes have an especially keen interest in the beneficial use of boundary waters.

"I am sure all of us hope that we are really approaching the day when we can start to make full use of the Great Lakes and St. Lawrence system both for navigation and power.

"I know we in Canada are getting rather impatient about the delay. From end to end of Canada there is an overwhelming feeling that a development which will strengthen and enrich this whole St. Lawrence area will benefit all parts of the continent."

Frank C. Pace, secretary of the army, told a congressional committee a few weeks ago that the St. Lawrence seaway and power project had "the approval and strong support of the Department of Defense".

Pace said the St. Lawrence project would stimulate U.S. merchant marine and ship construction industry, provide a vital route for high-grade Labrador iron ore, and strengthen national defence further by providing a large source of cheap, dependable power.

"We are making every effort to standardize military equipment with Canada," Pace told the committee. "The same benefits (of the St. Lawrence project) that I have outlined from the United States point of view are equally applicable to Canada."

"This will permit Canada to develop her industrial potential, and strengthen her military posture, thereby enabling her to go ahead with the arms-standardization program." Pace said this bore directly on defence aspect of the St. Lawrence project.

Since Pace made that statement, Korean war developments have greatly increased the importance of United States-Canadian defence collaboration, and a \$25,000,000 arms-purchasing arrangement has been worked out between the two nations—making St. Lawrence power still more vital for defence.

The Canada-United States Permanent Joint Board on Defence weighed defence aspects of the St. Lawrence project and made public this recommendation: "The board considered the significance of the St. Lawrence seaway project from the point of view of the joint defense of the United States and Canada . . . It is . . . the view of the board that the early completion of this long-delayed enterprise on a co-operative basis satisfactory to both governments would directly contribute to the security of the North American continent."

These are only a few of the views of responsible defense leaders of this continent regarding the importance of getting Senate approval of the 1941 agreement between Canada and the United States to construct the Great Lakes-St. Lawrence Deep Waterway.

Yet the U.S. Senate has continued to ignore this and similar advice from this continent's highest defense authorities!

Layer after layer of apathy has encrusted itself upon the public's attitude toward the St. Lawrence project because so much has been said and so little done for so many years. It will be unfortunate if this encrustation of apathy can only be broken by the atomic bombs of an invading enemy.

GOVERNMENT CONTROLLED

More than 32 million acres of public land, or over half of the total area of Oregon, are under the control of the federal government, including 13 national forests, two national park service areas and extensive grazing acreages.

2908

## Wheat As Feed For Livestock

In periods when a wheat surplus exists or when the crop has been damaged by frost, rust or unfavourable weather at harvest time, the importance of giving wheat a place in farm rations merits consideration.

Wheat is fully as palatable as the coarse grains more commonly used for feed.

When mixing wheat with other grains, it should be done by weight rather than by measure.

Wheat should never be ground finely for feeding. Medium to coarse grinding or rolling is preferable as finely ground wheat may become pasty when moistened and result in digestive disorders.

### Pigs

Wheat like all other grains has individual characteristics and limitations in pig feeding, which require that it be used with judgment. Though in some cases a high proportion of this grain has been used in feed mixtures with apparent satisfaction, there is some experimental evidence which suggests that under certain conditions hogs so fed may be penalized in carcass grade for over-finish even when marketed at 200 pounds live weight. However, when a mixture of grains is used there should be no danger of carcass penalty traceable to wheat when it constitutes not over 60 per cent. of the feed mixture.

Wheat to be satisfactory for swine feeding, like the other cereal grains, requires the addition of protein, mineral and vitamin supplements.

### Beef Cattle

For fattening market cattle, it is safer to feed wheat mixed with grains of a bulky nature. Oats are particularly suitable for this purpose. It is advisable to include a high percentage of oats at the beginning of the feeding period and gradually increase the proportion and amount of wheat or other heavy grains as the period advances. Wheat should be rolled or coarsely ground for cattle.

### Dairy Cattle

Cows in milk require generous ration which is rich in digestible nutrients, and particularly rich in proteins and minerals. When legume hays form all or part of the roughage fed to dairy cows of average producing ability, the need for costly, high protein feeds is reduced and the cereal grains, including wheat, can be used more widely. Wheat may replace the coarse grains and bran in the ration of the milking cow to the extent of one-third of the total grain ration.

### Sheep

Wheat has been fed extensively to fattening lambs and wintering ewes. It is frequently fed in the unground

YOU'RE  
TELLING  
ME

By  
WILLIAM  
RITT  
Central Press  
Canadian Writer

A survey of likes and dislikes of British school children reveals they are more afraid of cockroaches than tigers. Naturally, tigers seldom charge at one from out of a dark basement corner.

Outer space, we read, is full of cosmic dust. Naturally, with all those comets charging by at break-neck speed.

Speaking of dust, the Man in the Moon could certainly use a housekeeper. Astronomers say the stuff is a foot deep on our satellite.

An editorial moans the passing of the old-fashioned veranda as a means of keeping the family together. Well, there's always the living-room television set.

A Chinese family boasts none of its members have worked in the last 14 centuries. Still looking for the right kind of job, no doubt.

A midwesterner sought a divorce because, he said, his wife beat him with a floor lamp. The bumps and bruises would be bad enough—but just think of the wear and tear on electric light bulbs!

An easterner is suing a racing stable for selling him, he says, a horse that sneezes. There's a nag, apparently, that can't win by a nose—not even a red one.

## Canadian Fashion

NEW NOTE—Velveteen is old, yet new as shown in above model with perky stand-up collar.

state, although the hard milling grades should be coarsely ground or cracked for general sheep feeding. A mixture by weight of one part wheat and two parts oats would be suitable for ewes and for lambs during the early part of the fattening period. As the lamb feeding period advances, the proportion of wheat may be increased until three parts wheat and one part oats is being fed.

### Horses

The best single grain for horses is unquestionably oats, although wheat may be used in the ration, especially for work horses. Wheat should be rolled or coarsely ground for horses and may be used with the greatest safety when fed with a bulky feed like oats.

While experimental work now being carried on to establish the relative feeding value of wheat that was frosted at varying stages of growth is incomplete, present indications are that weight per bushel is the best yardstick.

Further information on feed and feeding practices is available from Provincial Department of Agriculture, Agricultural Colleges, Dominion Experimental Farms, and livestock offices of the Dominion Department of Agriculture.

## Alimony Costly, Bouquets Cheaper, Says Psychiatrist

WINNIPEG. — That husband of yours may not be the best or most handsome specimen on two feet, lady, but there's a way to make your wedded life a lot more acceptable.

"It's no farther away than the tip of your tongue," says Provincial Psychiatrist T. A. Pincock.

The key to domestic bliss? Brag about the guy, do it where people can hear you. If you look hard enough, you can find something in him to brag about.

But Dr. Pincock says you should be cautious: don't extend the bragging to a point where it becomes boring.

The psychiatrist gave his advice at a young couples' club. And he had some advice for husbands, too. He said they should remember anniversaries and show other common courtesies.

"A bouquet costs something," he said, "but it's a lot cheaper than paying alimony."

Marriage failures, the doctor continued, are usually due to "emotional or other personality failures."

"No marriage runs itself; it must be managed."

Spats out of proportion to their cause could be avoided if couples would understand each other's moods. By remaining calm, one partner could "usually" bring the angry one around to apologizing.

A union of two persons both used to having someone make decisions for them is a sad affair, said Dr. Pincock. Equally difficult is a marriage of two dominant individuals because each is convinced the other is bossy.

Knowledge beforehand of these traits would make for intelligent adjustments.

Incompetent housekeeping, inefficient use of leisure time and unfair division of labor were secondary causes of marriage failures.

The ideal in marriage—what he called "a democratic co-partnership"—was achieved in about one-third of all marriages. Husbands dominated in a little more than one-third of marriages; wives in a little less than one-third.

Dr. Pincock said the wife-dominated marriages "show a particularly unhappy situation."

Couples could have different interests but if they loved one another they could solve most of their difficulties.

"After all," said Dr. Pincock, "I'm a believer in romance."

## NEW CHRYSANTHEMUMS—SMELL OF VIOLETS

DORRIDGE, England. — Flower-grower John Woolman, 60, has found a way to put scent into chrysanthemums.

Normally these flowers have no perfume. Mr. Woolman, a leading chrysanthemum exhibitor, found his formula after five years experimentation.

There's one odd thing about Mr. Woolman's chrysanthemums — they smell of violets.

## On The Side : By E. V. Durling

### Sauce For The Goose

Resisting arrest, Monsieur Georges Delcourt, of Paris, tossed three gendarmes flat on their backs. It took six policemen to arrest him. Monsieur Delcourt's height is four feet, 11 inches, weight 130 pounds. How did he manage to handle the situation as he did? He is a master of the art of judo. That judo must be really something. Women are being instructed in it in New York so they can protect themselves if molested by flirtatious males. That's fine. But some women after learning judo have used it on their husband during domestic disagreements. So if your wife takes up judo you do likewise. Be prepared to protect yourself. You know what the man said about a woman scorned.

### Age Of The Hoppicopter

Ever hear of a hoppicopter? That is a one-man helicopter equipped with a motorcycle engine. A hoppicopter has a speed of 50 miles per hour. It's an American invention, but is being manufactured in England. Will be offered for sale in this country next year. Price will be around \$1,500. What with the way the highway traffic situation is becoming, the air over the U.S. may be full of hoppicopters in a couple of years. Automobile accidents are confined to the highways. But if and when a Hoppicopter develops engine trouble it may start falling and may drop through somebody's roof. If we get too many aircraft in the air I guess the only thing to do will be to put a net over the country.

### Pity The Poor Sailors

The women on Rapa, known as "the island of women", are still suffering from a lack of male company. The population of Rapa, which is 700 miles southeast of Tahiti, is 325. Of these inhabitants only 35 are males. So desperate for male company are the Rapa females, who are reported to be statuesque and pleasantly proportioned, that they often kidnap sailors from ships which stop at the island.

### Power Of Women

A British racing greyhound owner switched from a male to a female trainer for his dogs. The result was 25 per cent. increase in victories. Other owners, attracted by this, engaged feminine trainers for their dogs. These dogs also began to win more races. A male trainer decided to check to see if he could discover the reason for this situation. He noticed that the feminine trainers habitually talked "baby talk" to their greyhounds. So he tried "baby talk" on his dogs. It didn't work. He is still checking.

### Cause For Divorce

When married she gave her age as 25. She really was 35. That is what a man testified as to his wife when seeking divorce. He told the court he really believed his wife was only 25. When told later she was 35 he wouldn't believe it until he saw her birth certificate. I knew of a man who thought the woman he married was 25. He found out later she was 45! It certainly is remarkable how some females can preserve their youth. Why, sir, there is a well-known actress I know to be at least 60 years old. She appears to be about 25

## World Happenings Briefly Told

Gold output in all producing provinces except British Columbia rose in August. Country-wide production went up to 376,386 fine ounces from 359,931 a year earlier.

More than 200 workers were carried to death in the collapse of Hanchu bridge, being rebuilt over the Pearl river near Canton in southern China, press reports said.

Work has started on a \$2,400,000 school for mental defectives at a Park south of Moose Jaw. The school will house more than 1,000 patients with a staff of about 350.

Thorvald A. Larssen, 54, editor and co-publisher of the Norse News, only Norwegian language weekly in British Columbia, died recently at his home at New Westminster, B.C.

More than 2,000,000 pilgrims have visited Rome during the Holy Year, Vatican officials said. It is expected the total will easily exceed 3,000,000 before the year ends Christmas Eve.

Probably the world's northernmost automatic telephone exchange has just been opened by Sweden at Kiruna in Lapland above the Arctic Circle. The exchange has 2,500 lines.

Settlers on the western desert border of New South Wales are fighting a losing battle against swarms of locusts. Despite use of flame-throwers and smoke screens the insects are breeding so fast millions more appear daily.

### FARM USE ONLY

MOOSE JAW, Sask.—The Royal Canadian Mounted Police is cracking down on motorists who use purple-colored gasoline in their cars. The purple gas, exempt from Saskatchewan's 10-cents-a-gallon tax, is for farm use only.

## Fashions Wonderful One

*Anne Adams*

Such thrift! ONE 98-lb. feedbag, or ONE yard plus a little contrast for this apron! Easiest sewing ever! Cut ONE piece—shape with slashes, add shoulder straps and tie-ends. WONDERFUL Apron-Pattern 4904 comes in one size, small (14-16). Takes one yard 35-inch.

This pattern, easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send twenty-five cents (25c) in coins (stamps cannot be accepted) for this pattern. Write plainly size, Name, Address and Style Number and send orders to:

Anne Adams Pattern Dept.,  
Winnipeg Newspaper Union,  
60 Front Street W., Toronto.

Send Twenty-five Cents now (in coins) for our Fall and Winter Pattern Book by Anne Adams. The best of the new-season fashion in easy-to-sew patterns for all. Christmas gifts, too, plus Free a thrifty pattern for making a child's dress from a man's shirt.

### FIRST DETECTIVE STORY

Edgar Allen Poe's "Murders in the Rue Morgue" was the first detective story. 2908

## Buzz Buerling Buried Near Elijah

HAIFA, Israel. — Flt.-Lt. George (Buzz) Buerling, Canada's top air ace of the Second World War, has been laid to his last resting place.

Buerling's remains were re-buried at the foot of Mt. Carmel, near the cave of the Prophet Elijah. Buried beside him was his Jewish friend, Sqdn.-Ldr. Leonard Cohen.

Buerling—a Christian—and R.A.F. ace Cohen were killed in May, 1948, when a plane they were ferrying to Israel exploded in mid-air near Rome.

Buerling was credited with 31 enemy aircraft.

Attending the funeral were members of the Canadian Jewish community and the Zionist organization of Canada. A wreath from the Canadian Legion was one of many on Buerling's coffin.

GEORGE (BUZZ) BUERLING

## Near Extinct Whooping Crane

EDMONTON, Alta.—If there is a rare and beautiful whooping crane anywhere in the Yukon Territories, the bird is hiding out in a place hard for man to find.

Once fairly common on the Canadian prairie, the six-foot whooping crane is nearly extinct.

Wild life experts have counted only 34 of the birds on the North American continent in recent years. J. D. Soper, Dominion wildlife officer for Alberta, was sent to the Yukon to look for more.

Indians and Eskimo were asked if they had seen the birds, and their replies were negative. After two and a half months in the Yukon, Soper returned to give his unsuccessful report.

The odd crane has been seen in the Grande Prairie district of northern Alberta, and in northern Saskatchewan.

### KITCHEN MEDITATIONS

By JANE DALE

#### NOVEMBER

November has no singing birds; No sweet green grass or scented flowers.

November has no purling brooks; No warm clear streams or sun drenched hours.

November has no springtime charm; No summer grace nor autumn gold. And lacks mid winter cheerfulness. The hoarfrost and the tingling cold.

November may not have allure As other seasons of the year; Because it is betwixt, between, Its days are often dull and drear. November has its fireside bright, A refuge from the fog and snow. November has long cozy hours With loved ones in the firelight's glow.

Well done is better than well said.

North misread the situation on this hand from rubber bridge. South opened One Heart and passed over North's raise to Two Hearts. West now bid Two Spades which was passed round to South, who bid Three Diamonds. This was merely an attempt to contest the part score by offering an alternative trump suit: it could not possibly be a try for game after South's pass on the second round. But North was bemused by his fit in Diamonds and jumped to Four Hearts which East doubled.

♦ 7 was led and East returned ♦ 2, a suit-preference signal asking for a Club lead. West had sufficient confidence to return ♦ 3 and obtained a second ruff for a penalty of 500.

About 300 words of English make up 75 per cent. of all words used in speech and writing.

## Weekly Tip

### REMOVE BUTTONS

To remove buttons from a garment before washing, slide a comb under the button, and slit the threads with a razor blade. Then keep all the buttons together either on a large safety pin or by running them on a string.

**ROME ASSUMES CARNIVAL APPEARANCE**—Glowing like a giant birthday cake is the castle of St. Angelo in Rome. It is lighted for the Holy Year climax of the proclamation of the dogma of the Assumption by Pope Pius.—Central Press Canadian.

**FRENCH DEVELOP NEW-STYLE BAZOOKA**—Two French soldiers demonstrate a light anti-tank weapon, similar to the Canadian Flat, during a demonstration of new weapons by troops of Western Union countries at the British School of Infantry, Warminster, England. The gun can be handled by one man or a team of a firer and a loader.—Central Press Canadian.

**HUMANITY IS THEIR PROBLEM**—While the U.N. assembly busies itself with the urgent problems of war, Mrs. Eleanor Roosevelt and Mrs. D. B. Sinclair, assistant to the deputy minister of welfare in Canada, discuss the humanitarian aspects of the United Nations. They are both delegates to the U.N.'s Third Social, Humanitarian and Cultural committee.

**AFTER A FIVE-YEAR INTERVAL**—For the first time in five years, mass is celebrated in the Benedictine monastery, in Wonsan, North Korea, by Chaplain Urban Wurm of the U.S. 10th corps. During the years when the Reds were in control, the monks of the monastery were "removed", one by one. Only four remain of the 34 originally in the abbey. No one has been able to find out what became of them.—Central Press Canadian.

**ALL IT NEEDS IS A MOTOR**—The U.S. navy's newest underwater motion picture camera, the 35 mm. Eclair Aquaflex, is pictured being demonstrated by a navy cameraman at the Anacostia, D.C., naval air station. The 107-pound camera has the buoyancy of a submarine, capable of being adjusted to positive, negative and neutral buoyancy. The unit is fitted with vertical fins and wings enabling the diver-cameraman who carries his own air supply to swim with the underwater camera.

**URGED TO STAY**—The Dalai Lama, 16-year-old spiritual head of Tibet, is being urged by his advisers to remain as figurehead leader in Lhasa when the Chinese Communists arrive. Latest reports are that the Tibetan forces are retreating without a fight and that Lhasa, the capital, would soon be in Chinese control.—Central Press Canadian.

**IT'S A PRIZE WINNER**—Judges in a "popular photography" contest in the U.S. had no trouble deciding on this photo. It was taken by a Cincinnati, Ohio, father, with his baby daughter as model. There were 53,000 entries in the contest.—Central Press Canadian.

**WIDOW IS CHARGED WITH CONSPIRACY IN ASSASSINATION**—Located by New York police after she had vanished from her hotel, Mrs. Giselo Torresola, 22, widow of the Puerto Rican Nationalist gunman killed during assassination attempt on President Truman, arrives at the Federal building for questioning. She is charged with being a co-conspirator, as was Mrs. Rosa Collaza, whose wounded husband is being held for murder of a White House policeman. 2908

**SAFE STOPOVER FOR TRAVELLERS**—Annual migration of ducks and geese from Canada's northland is at its peak. Thousands of migratory birds alight daily at the Jack Miner bird sanctuary at Kingsville, Ont., are fed and take to the air for the long trip south. Here Manley Miner feeds a group of snow geese, mallards, white tumbler pigeons with a few robins and sparrows pushing their way among the invited guests.

**OFF TO THE KOREA FIGHTING**—Group of the Princess Pats, the first Canadian regiment scheduled to join the U.N. fighting forces in Korea, is shown in Toronto's Union Station waving goodbye to relatives.

# Korean War Foretold In 1,000-Year-Old Book

(By Jerry Klein, CPC Correspondent)

Now that U.N. armies are pushing the North Koreans back, it is recalled that 1,000 years ago a mysterious Korean prophet named Chung Kam predicted it would happen. In a list of prophecies called The Book of Chung, handed down through the centuries, Koreans of 1950 have found Chung said things which they interpret as a prediction of the present conflict.

Some of them say he not only foretold the war, but even some of the battles. Among these are the battles which have taken place at Chunchon, Wonju and along the Imjinjong river.

They who believe in the accuracy of Chung's predictions don't worry about their country's being soon liberated because the old soothsayer said that although the intruders would bring trouble to Korea, their forces would never conquer it.

Even admitting that the Reds might interpret the "intruder" forces as being those of the U.N. it's still amazing that Chung could look 10 centuries into the future and predict specific battles, as well as the eventual freeing of Korea.

In the past, several prophets have concentrated on predicting military events, although few dared look so far ahead as Chung. Now that his prophecies are substantiated by fact, he takes his place at their side.

Chung may stand at the right hand of Michel de Nostradamus, the French monk-physician who gave details of World War II although he died 400 years before it began.

In 1555 Nostradamus began writing the series of verses in which he described, among other things then yet to be, the Great Fire of London and the American Civil War. But Nostradamus really hit his prophetic stride in foretelling details of World War II.

He said that in Germany a tyrant would rise to power whose name would be "Histler" or "Hister", and he gave a physical description of the future Italian ruler which would fit only Mussolini.

Nostradamus told how Germany would start war with her neighbors and send "metal birds" to invade Poland, the Low Countries and France. These birds apparently are airplanes since the French oracle said they'd carry "fighting men".

He said that "Those in the Isles" would be "a long time besieged by machinations of flying fire," a statement which is said to prophesy the great fire-bombings of England in 1940 and the later V-1 and V-2 rocket raids.

However, Nostradamus wrote, the English would "recover vigor against their enemies" and eventually turn defeat into victory.

Students of Nostradamus' writings say he foretold the birth and death of the League of Nations set up after World War I, the fall of France, and the late entrance of Italy into the war started by "Histler".

He also referred to Germany's defeat largely through the efforts of "a daughter of England" who would "establish unity and justice . . ." The "daughter" is said to be the United States.

Prediction of the submarine is also credited to Nostradamus. He foretold a "metal fish with an eye on a stick", which is said to be the modern submarine periscope.

Apparently, even a Seventh Century French nun foresaw World War II. Saint Odile, the daughter of a nobleman, prophesied the time would come "when Germany will be called the most warlike nation of the world."

She, too, apparently had some inkling of the rise of Hitler for she

CHUNG KAM  
—Central Press Canadian.

wrote that "from her (Germany) shall rise the terrible warmaker who will bring about a world war."

Like Nostradamus, an Eighteenth Century Polish soothsayer named VERNYHORA foresaw the German invasion of Poland during World War II. In 1786 VERNYHORA predicted that when the German eagle flew eastward it would return with a broken wing.

Perhaps the most far-sighted and detailed prophet in the history of man is the great Pyramid of Khufu on the Egyptian Nile.

Those who believe it foretells man's fate refer to the Bible's statement that God "set signs and wonders in the land of Egypt."

They say the huge pyramid, the base of which covers 12 acres, is a key to all man's destinies. The length and shape of its interior passageways are said to have predicted worldly events from the Hebrew exodus from Egypt, to the spread of Christianity, the industrial and political revolutions, and the world wars.

The great pyramid doesn't make vague prophecies, either, but pins its predictions right down to the very day.

Some 5,000 years ago, for example, its builders decided the pyramid would foretell the end of the world on either Sept. 15, 1953, or Sept. 17, 2001. Take your choice.

## Helpful Hints

Don't forget to wash your brushes and combs when you shampoo your hair. Use a little ammonia in the soapy, warm water that you wish to use.

To prevent knots in lumber from working loose and marring the surface of your construction, cover them with a couple of coats of shellac before the board is used.

If you have room in your refrigerator, sprinkle and fold clean laundry, wrap and put in the refrigerator for several hours. You'll be delighted to find how much easier it is to iron.

Beetles, cockroaches and other pests may be cleared away by the use of borax. Sprinkle it around, renewing every two or three days until the insects have quite disappeared. Sodium fluoride is excellent, too.

## A Quiz On Canada

(By F. W. Rayfield)

Women are taking a more and more active part in our Canadian affairs. Write your answers and check. Give 5 points for each correct answer. A score of 60 is very good.

Pair these women writers with the books they wrote.

(Answers found elsewhere on this page)

## What Threatens Your Child!

Ask anyone what is considered childhood's most serious disease and the odds are 10 to 1 that you'll get the answer—"poliomyelitis"—"diphtheria"—"scarlet fever"—

Well—they all would be wrong, and the few who would say "whooping cough" would be right.

Take a look at the table below—it gives the facts in figures which cannot be disputed.

**Facts About The Killing Diseases!**  
Case and death statistics for five-year period 1943-48.

	Deaths	Cases
1—Whooping Cough . . .	1,819	69,740
2—Diphtheria . . . . .	1,322	13,764
3—Scarlet Fever . . . . .	466	75,909
4—Poliomyelitis . . . . .	427	7,408

It is interesting to note that whooping cough and diphtheria, both of which are preventable, topped the deaths column, whereas poliomyelitis, a disease about which much remains to be learned and for which no preventive has been found, was fourth in the list.

An editorial in "Canada's Health and Welfare", published by the Department of National Health and Welfare, comments that "medical science admittedly lacks many answers where diseases like polio are concerned. But medical science has the answers for diphtheria and whooping cough. Yet more lives were lost from each of these diseases than from polio. This shameful situation can only be remedied by public education."

AND, such education is being carried on by the Health League of Canada, a voluntary association. The Health League strives to impress the public that medical science has provided the means to wipe out certain preventable diseases—that it is up to the public to voluntarily make use of such means.

**POLIO . . .**  
Admittedly polio is a serious disease, but so far, nothing can be done about preventing it. Meanwhile, however, something can be done about diseases which are creating more havoc than polio—they can be wiped out through immunization, but only with the full co-operation of the public.

It would appear therefore, that the annual polio "scare" are out of proportion as far as the death-dealing diseases are concerned, particularly in view of the fact that the other more-serious diseases evidently create no public apprehension at all. After all, death is just as dramatic in one form as in another—and just as real and heart-breaking to the family which suffers the loss of a loved one.

## Patterns

Home Sweet Home

7266

Alice Brooks

Here's a homey touch! You'll like this so much on your chairs in any room. This new design has the simplest stitches.

Make your house a home with new chair-sets! Pattern 7266; has crochet directions.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Winnipeg Newspaper Union,  
60 Front Street W., Toronto.**

Be sure to write plainly your Name, Address and Pattern Number.

It's the best ever—our latest Alice Brooks Needlework catalogue! Send twenty-five cents in coins for your copy. Illustrations of designs for crocheting, knitting, embroidery, toys, quilts, children's clothes. Free needlework pattern is printed in book.

## Smile Of The Week

A worried looking man walked into a florist's shop and asked for three geraniums.

"I'm sorry," said the clerk. "We're out of geraniums just now, but we have some nice potted chrysanthemums."

"No, they won't do," replied the man. "I promised my wife I'd water her geraniums while she was away."

## Sugar Beets Net Manitoba Farmers Millions

**WINNIPEG.**—A huge processing plant in suburban Fort Garry is working on a 24-hour schedule to turn 150,000 tons of sugar beets into commercial sugar.

The crop will net Manitoba growers about \$2,100,000. The company had about 20,000 acres of beets under contract this year, its 11th year of operation.

Sugar produced at the plant supplies much of Manitoba's requirements. The factory operates about three months each year.

An average of 12 hours is required from the time beets are carried into the plant by an underground flume to the stage where white sugar crystals are transferred to a warehouse for bagging and shipment.

The process involves removal of all foreign substances and impurities, slicing, purification and evaporation of water content.

Vacuum boiling precedes the final stage in which centrifugal machines—operating at 1,600 revolutions a minute—spin away the syrups, leaving white sugar adhering to an inner screen.

The processing is a continuous operation, marked throughout by rigid laboratory tests.

Heavy rain and snow delayed harvesting this season and temporarily interrupted the essential steady flow of beets, by train and truck.

During the growing season, 2,500 men are employed in the fields of Southern Manitoba. Four hundred workers man the factory, exclusive of a year-round staff which includes executives, office help, and field, warehouse and maintenance men.

Sugar output from this year's crop is expected to be about 35,000,000 pounds of sugar—about the same as last year. This does not take into account various by-products, such as 15,000 tons of molasses and dried beet pulp. These find a ready outlet as cattle feed and in industry.

## Believe British Girls Useful On Prairie Farms

**WINNIPEG.**—Miss Beatrice Brigden, president of the Winnipeg Council of Women, said she couldn't see any reason why British land army girls "shouldn't be as useful as a man" on prairie farms.

A London report said Canadian immigration officials are trying to interest the British farm girls in coming to Canada to work.

"They could do combining as well as any man," said Miss Brigden. "Some farm women, I know, do. Whether a woman's strength could stand up to the size of prairie farms I'm not prepared to say."

Another view was expressed by H. R. Richardson of Manitoba's Farm Help Service who said there is no place for women farm workers in the province "because of the highly-mechanized type of work."

Miss Brigden said there might be a field for the girls in fruit, corn, sunflower and sugar-beet production but those crops were not too well developed on the prairies.

"I can see no reason why we can't absorb a number of the British land army girls, although not too many," she said. "They might bring new techniques, careful and painstaking methods with which Manitoba farmers are not too familiar."

## GEMS OF THOUGHT

WORDS

Language is the only instrument of science, and words are but the signs of ideas.—Samuel Johnson.

Words are not always the auxiliaries of Truth. The spirit, and not the letter, performs the vital functions of Truth and Love.—Mary Baker Eddy.

The deepest truths are best read between the lines, and, for the most part, refuse to be written.—A. Bronson Alcott.

Among the sources of those innumerable calamities which from age to age have overwhelmed mankind, may be reckoned as one of the principal, the abuse of words.—George Horne.

Without knowing the force of words, it is impossible to know men.—Confucius.

**FIRST "OBSERVER'S MATES" IN THE CANADIAN NAVY**—Six able seamen at the Royal Canadian Naval air station at Dartmouth, N.S., officially embarked on a new career in the air branch when they received wings qualifying them as "observer's mates". Each will be the third man in Avenger aircraft—latest R.C.N. anti-sub carrier plane. They are the first class to qualify. At ceremonial parade, (above), they are drawn up prior to the presentation. Left to right are: William D. Hunter, Watrous, Sask.; Harry Sully, Mount Forest, Ont.; Robert L. Rogers, Westboro, Ottawa; William A. Harnell, Three Rivers, Que.; Douglas Carr, Chesterville, Ont., and Douglas S. Moffatt, Montreal.—Central Press Canadian.

## ANSWERS TO QUIZ

1. L. M. Montgomery—Anne of Green Gables
2. Martha Ostenso—Wild Geese
3. Mazo de La Roche—Jalna
4. Miss Marshall Saunders—Beautiful Joe
5. Kathleen Strange—With the West in Her Eyes
6. Barbara Ann Scott—Singing
7. Madam Albeni—Painting and writing
8. Emily Carr—A military exploit
9. Ada Mackenzie—Golf
10. Madeleine de Vercheres—Skating
11. Mrs. Black—Alberta
12. Mrs. Casselman—Battleford
13. Agnes Macphail—Grey County, Ontario
14. Mrs. Dorise Neilson—Qu'Appelle
15. Mrs. Gladys Strum—Yukon
16. Canada has two women senators. Name one of them.
17. There is one woman M.P. in Canada. True or false?
18. What women born on the Indian Reserve near Brantford became a well known poetess and reciter? Was it Anderson, Johnson, or Robertson?
19. The Dionne Quintuplets were born in 1930, 1934, 1938?
20. Born in Coburg, Ontario, she became famous playing Tugboat Anne. Was she Mary Pickford, Deanna Durbin, Marie Dressler?

## OUR COMPLETE SHORT STORY—

## TURNABOUT

By HAROLD HELFER

"He Watched Her Coiled Finger Tighten Against The Trigger".

STEVE LAKEMAN loudly gave the address to the driver. Then, leaning back comfortably, he lit a cigarette, leisurely holding the match in front of his long, thin-featured face. Conspicuous behavior was all part of his ironic and bold plan.

How many men, he reflected, can call attention to themselves like this when they are about to kill their wives? Of course, he smiled grimly, he couldn't recommend his plan to everybody. You'd have to want to kill your wife pretty badly to do it his way. Giving up three years of freedom, for instance.

They hadn't been so bad, those three years in the mental hospital. The first part had been fairly rugged, when he was pretending to be a vicious paranoic, ranting and raving. And the last part, when he was "recovering", had really been something like a vacation, with occupational therapy and recreational.

And any feeling of boredom or monotony always was mitigated by the thought that someday, without subsequent peril to himself, he would have his wife by the throat—something she thoroughly deserved and something which would make him \$70,000 richer. Sure, they'd put him back. So he'd spend another year or two there "recovering" and then he'd be free and rich.

Another husband, discovering infidelities, would have been inclined to have wrung her neck then and there. But he'd pushed his rage into the background—and begun to plan.

Had disappeared and a week later, dishevelled and with a wild look, he'd walked up to a policeman. He didn't know who he was but he wanted to be locked up because he felt impulses toward violence. It was a good performance.

He lit another cigarette. In a few minutes now, the cab would be in front of the house. He felt excitement rising within him but there was no panic or worry. He had lived with his plan for a long time and the approaching climax induced only the satisfied feeling of something

well done. There wasn't a flaw or a chance of backfire anywhere. He knew that, when he was committed to the asylum, legally Grace couldn't touch his share of their joint holdings for seven years. And he hoped that, after being adjudged an insane murderer, he would be entitled to everything when he got out again.

One thing piqued his curiosity. Grace herself. When he had called her from the depot, she had said, "It will be wonderful to see you again, Steve, darling! Please hurry!" Her letters to him had been sweet and loving. At first, Steve had thought that she was making up to him to induce him to sign over their holdings when he got out...

Maybe she really cared for him after all. Maybe she had tired of the other guy and found out that it was Steve she wanted. That would certainly add irony to the situation. He smiled to himself. He wondered if he ought to play the gallant lover before killing her.

Now the car was at the door.

He gave the driver a large tip—another conspicuous act. Sane men, ladies and gentlemen of the jury, try to conceal and camouflage themselves and their actions when they are about to commit murder. Then he strode up to the door and knocked.

It promptly opened. Grace, her dress emphasizing a good-looking body, stood there, her cheeks flushed. There was the sound of the cab driving away.

The corners of her mouth dimpled into an enigmatic smile. It wasn't until she had closed the door behind them that he noticed she had a gun in her hand.

Mute, he sat down in a chair she indicated with a gesture. Grace took a seat directly in front of him. The gun was pointing squarely at his forehead.

"I'm going to kill you," she said. "I don't trust you, Steve. You're a cold fish. I wouldn't be surprised if you're out to do away with me. Also, as it happens, there is someone else. And last, but not least, it would be nice to be able to handle all our assets as I alone see fit."

"You'll never get away with this," he exploded. "You'll go to the chair!"

"I don't think so. After all, my mail to you was first read by the authorities before it got to you. It will be hard to believe that a woman who wrote such fond letters would harm her husband without plenty of provocation."

"You'll never prove provocation..."

"That will be the easiest part, Steve. I took a wifely interest in your stay and it's in the record in black and white what a vicious character you can be at times. A kid of a lawyer could get me off on self-defense."

Spellbound, he watched her coiled finger tighten against the trigger. (Copyright Wheeler Newspaper Syndicate)

About five billion meteors strike the earth's atmosphere every day.

**POLICE SEIZE COUNTERFEITERS' CHRISTMAS MONEY**—Counterfeiters' Christmas shopping spree was stopped before it started when R.C.M.P. uncovered \$130,000 in Toronto. Det.-Sergt. G. H. Ashley has the job of counting the money, all in \$10 bills.—Central Press Canadian.

## WESTERN BRIEFS

## Dam Near Completion

MINNEDOSA, Man. — Workmen are completing Minnedosa's new \$90,000 water-storage dam. For the first time since early 1948 there is water in the bed of Minnedosa lake. Downstream from the dam the Minnedosa river has slowed to a trickle.

## Jersey Triplets

FARMER Maitland McCarthy, of Vancouver, has a happy threesome—triplet Jersey calves born at his Shamrock farm, near Crescent Beach, B.C. They are believed to be the only purebred Jersey triplets in Canada.

## To Sail Dec. 22

LETHBRIDGE, Alta. — Lethbridge Maple Leafs, Canada's representatives in the world hockey championships at Paris next March, will sail from Halifax Dec. 22, it was announced here by playing coach Dick Gray.

## Just "Blister" Pearls

LADYSMITH, B.C. — A productive oyster was an impressive find at the oyster house of John Malamas. A fisherman discovered 100 "pearls", but an expert said they were just "blister" pearls of no commercial value.

## Brownlee Elected

CALGARY. — J. E. Brownlee, of Calgary, was re-elected president of United Grain Growers limited. R. C. Brown, of Winnipeg, was re-elected first vice-president and J. Harvey Lane of Philmore, Sask., second vice-president. 2908

## WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out about 2 pints of bile juice into your digestive tract every day. If this bile is not flowing freely, your food may not digest. It may just decay in the digestive tract. Then gas builds up your stomach. You get constipated. You feel sour, sunk and the world looks punk. It takes those mild, gentle Carter's Little Liver Pills to get those 2 pints of bile flowing freely to make you feel "up and up." Get a package today. Effective in making bile flow freely. Ask for Carter's Little Liver Pills, 35¢ at any drugstore.

## Intuition Saves Worker's Life

Friday, Oct. 13, proved to be a lucky day for Henry Walters of Regina, who saved himself from dropping 70 feet to the ground off the Western Grain elevator at Birsay, Sask., that morning.

Walters, who has been with the shingling crew for many years, has no fear of dizzy heights. But the night before, he awakened slightly ill. The next morning he told the foreman that he thought he had better not go up to the top of the elevator that day. However, after breakfast, he appeared so well that no one objected to his going on with the job. But when he got to the top of the elevator and eased himself down the short ladder to the shingling platform, intuition told him to take precautions. So he wrapped a length of heavy rope around his middle and tied it to the guy ropes of the platform.

In less than an hour he began to feel dizzy. "I guess you'll have to pull me up," he said to his partner. "I think I'm going to faint!" Before help could get to him, he had fainted away and was slumped over the edge of the platform, 70 feet in the air, with only the rope around him between him and a plunge to death.

The foreman and the other shingler had quite a time getting Walters hauled up the slanting roof and into the top window. They took him down on the elevator lift and he gained consciousness at the bottom.

But Walters was not so shaken as his two friends. He rested, had dinner, rested again, and a few hours later was back on top of the elevator.

The arrow in the above picture shows where Henry Walters, of Regina, was working when a fainting spell besieged him, and was only saved by his intuition of placing a rope around himself prior to setting to work. The foreman is watching from the ground below.

### LITTLE NEWS ITEMS OF LOCAL INTEREST

—The Drumheller Health Unit  
will hold a Well Baby and Pre-  
School clinic in the United Church  
hall on Monday, December 4th,  
from 10 a.m. to 12 noon.

Don Pattison of Lacombe was  
a weekend visitor at the home of  
his father, Charlie Pattison.

Rev. Jacob G. Rott will conduct  
morning services at Zion Baptist  
Church and evening services at  
Carbon Baptist Church Sunday,  
November 26th.

—Alex R. McTavish, R.O., Gradu-  
ate Optometrist, will visit Shaw's  
Drug Store, Carbon, on Monday  
afternoon, December 4th.

Mr. and Mrs. Sid Wright and  
Mrs. Bert McCracken were Cal-  
gary visitors Tuesday.

Get your tickets on the Duke  
of York Chapter I.O.D.E. Doll and  
Wardrobe from any member. The  
draw will take place at the show  
next Thursday, December 7. The  
doll is on display in the window  
of Vi's Style Shop.

The Home and School Associa-  
tion will meet at the school on  
Thursday, November 30, at 8 p.m.  
The November and December  
meetings will be combined due  
to the many activities in Decem-  
ber.

—Have you had any visitors dur-  
ing the past week? Have you been  
host to any of the local organiza-  
tions? We would appreciate hav-  
ing these news items and stories  
for publication. Send them in or  
bring them to the Carbon Chron-  
icle office.

Mr. and Mrs. Albert MacAlpine  
of Edmonton were Sunday even-  
ing visitors with the former's par-  
ents, Mr. and Mrs. A. R. Mac-  
Alpine of the local telephone of-  
fice staff.

Jim Foster returned Thursday  
from Calgary, where he under-  
went an operation in the Holy  
Cross hospital.

The Carbon Lions Club has de-  
cided to canvass the Carbon dis-  
trict for cash donations to help  
defray the cost of renovating the  
Carbon Scout Hall. Canvassers  
were recently appointed and will  
shortly be making the rounds in  
their districts. Any donations, no  
matter how small, will be grate-  
fully accepted by them. The Lions  
Club is only asking that you con-  
tribute what you can afford.

The Club is also sponsoring a  
number of community activities,  
proceeds of which will go to the  
hall fund. The first of these, the  
recent "Trail of '98" dance netted  
over \$350. Other activities are in  
progress. Your contribution will  
help swell the fund.

The Lions Club extends sincere  
thanks to all volunteer workers  
who assisted on outside and in-  
side work in fixing the hall. Your  
kind co-operation was sincerely  
appreciated.

Rudy Martin reports that last Wed-  
nesday afternoon a flock of 16 grey  
geese, a cross between a tame goose  
and a wild gander, left his farm and  
were last seen at Grainger, flying in a  
southeasterly direction. Mr. Martin  
says that he has been raising geese from  
the original pair for the last 11 years and  
this is the first time that the flock has  
left his farm. He has offered a reward  
for information leading to their where-  
abouts.

**PREPARE FOR SAFE WINTER DRIVING**

Motorists are urged to have the safety equipment checked in their car and truck now before the weather shifts into high gear for winter. Look to these mechanical features:

- **EQUALIZED BRAKES** reduce chances of skids when stopping on snow, ice and wet pavement.
- **TIRES** with good treads are desirable, particularly for good traction when you need it.
- **CHAINS** should be checked and ready for use on driving under snow and ice conditions.
- LIGHTS** • **FROST SHIELDS** • **HEATERS**
- **DEFROSTERS** • **WINDSHIELD WIPERS**

should be checked and put in good shape for good visibility and driving comfort.

## Your 2 Billion Dollars are **BUSY...** working with Canadians in every walk of life

This is the money that you and 1,800,000 other B of M customers have on deposit at our branches across the nation. Through this money, you are helping to finance hundreds of thousands of Canadians... from the fishermen of Newfoundland to the lumbermen of B.C. ... who are busy building a better future for themselves and for Canada.

To private citizens... to farmers with seasonal incomes... to merchants, manufacturers and businessmen in every worthwhile line of endeavor... to municipalities, school boards and governments... to churches, hospitals and all types of public institutions... hundreds of millions of dollars are being loaned by B of M managers at more than 550 branches from the Atlantic to the Pacific.

Today, more people are saving and more people are borrowing money at "MY BANK" than ever before. You will find the story of these two billion busy dollars in the facts and figures that follow...

"MY BANK"  
TO A MILLION CANADIANS  
**B of M**

# Reporting

## THE FACTS BEHIND THE FIGURES for 1950

### WHAT THE B of M HAS TO MEET ITS OBLIGATIONS:

**CASH:** The B of M has cash in its vaults and money on deposit with the Bank of Canada amounting to

\$ 225,417,399.97

**MONEY** in the form of notes of, cheques on, and deposits with other banks . . . . .

150,987,587.73

**INVESTMENTS:** The B of M has over a billion dollars invested in high-grade government bonds and other public securities, which have a ready market. Listed on the Bank's books at a figure *not greater than their market value*, they amount to . . . . .

1,030,048,602.81

The B of M has other investments representing mainly short-term credits to industry. These investments are carried at . . . . .

128,050,593.19

**CALL LOANS:** The B of M has call loans which are fully protected by quickly saleable securities. These loans amount to . . . . .

67,972,396.98

**QUICKLY AVAILABLE RESOURCES:** The resources listed above, which can quickly be turned into cash, cover 76% of all that the Bank owes to the public. These "quick assets" amount to . . . . .

\$1,602,476,580.68

**LOANS:** During the year, many millions of dollars have been lent to business and industrial enterprises for production of every kind — to farmers, fishermen, lumbermen and ranchers — to citizens in all walks of life, and to Provincial and Municipal Governments and School Districts. These loans, now at the highest year-end figure in the Bank's history, stand at . . . . .

528,032,366.17

**BANK BUILDINGS:** In hamlets, villages, towns and large cities from coast to coast the B of M serves its customers at more than 550 offices. The value of the buildings owned by the Bank, together with furniture and equipment, is shown on its books at . . . . .

18,450,760.31

**OTHER ASSETS:** These chiefly represent liabilities of customers for commitments made by the Bank on their behalf, covering foreign and domestic trade transactions . . . . .

41,569,661.76

**TOTAL RESOURCES WHICH THE B of M HAS TO MEET ITS OBLIGATIONS** . . . . .

\$2,190,529,368.92

### WHAT THE B of M OWES TO OTHERS:

**DEPOSITS:** While many business firms, manufacturers, merchants, farmers and people in every type of business have substantial deposits with the B of M, the larger part of the money on deposit with the Bank is the savings of well over a million private citizens. The total of all deposits is . . . . .

\$2,062,597,786.09

**OTHER LIABILITIES:** Miscellaneous items, representing mainly commitments undertaken by the Bank on behalf of customers in their foreign and domestic trade transactions . . . . .

40,432,874.53

**TOTAL OF WHAT THE B of M OWES ITS DEPOSITORS AND OTHERS** . . . . .

\$2,103,030,660.62

**TO PAY ALL IT OWES, THE B of M HAS TOTAL RESOURCES, AS SHOWN ON THE LEFT SIDE OF THIS STATEMENT, AMOUNTING TO** . . . . .

2,190,529,368.92

**WHICH MEANS THAT THE B of M HAS RESOURCES, OVER AND ABOVE WHAT IT OWES, AMOUNTING TO** . . . . .

\$ 87,498,708.30

This figure of \$87,498,708.30 is made up of money subscribed by the shareholders and, to some extent, of profits which have from time to time been ploughed back into the business to broaden the Bank's services and to give added protection for the depositors.

\*\*\*

**EARNINGS** — After paying all overhead expenses, including staff salaries, bonuses and contributions to the Pension Fund, and after making provision for contingencies, and for depreciation of Bank premises, furniture and equipment, the B of M reports earnings for the twelve months ended October 31st, 1950, of . . . . .

\$ 9,536,897.69

Provision for Dominion Income Tax and Provincial Taxes . . . . .

3,594,000.00

Leaving Net Earnings of . . . . .

\$ 5,942,897.69

This amount was distributed as follows:  
Dividends to Shareholders . . . . .

\$ 3,600,000.00

Balance to Profit and Loss Account . . . . .

2,342,897.69

### Windbreaks and Shelterbelts

The value of any farm in the Prairie Provinces can be increased by well-planned windbreaks for its buildings and garden, and shelterbelts for its fields. Now is the time to plan for a tree planting program in 1951.

**Many Advantages.** Tree plantings add to the beauty and comfort of the farm home. They check the wind and moderate the extremes of heat and cold. Extensive farm surveys and studies have shown clearly that adequate windbreaks reduce costs of heating buildings and feeding livestock. In summer, rows of trees help to keep the topsoil of gardens and fields from blowing away, and protect crops from hot, drying winds. Besides, windbreaks and shelterbelts encourage, protect and furnish food for bird life. They greatly enhance the value of any farm property.

**Plan Now.** In general, Spring is the best time to plant trees. It is, however, essential to make a definite and complete plan of any tree planting program months in advance of planting time. Plans must be made now if trees are to be obtained for planting in 1951. Discuss the matter with your Agricultural Representative or District Agriculturist this Fall. He can give you the best tree-planting advice obtainable. Furthermore, get all the information you can from successful growers of trees in your own district. Above all, don't fail to write to the Dominion Forest Nursery Station, Indian Head, Saskatchewan, for information on tree planting on the prairies, and with respect to its policy of distributing to farmers, free of charge, certain trees and shrubs for farm windbreaks and shelterbelts.

Tree planting is not expensive. Comfort, pride and pleasure are the dividends to be derived from the establishment of a well-planned windbreak or shelterbelt. Get your tree planting program started now; don't put it off for another year.

## Happy Travel

**Starts with your local Canadian Pacific Agent**

Let him start you off right with a ticket on a fast, comfortable Canadian Pacific train. He can tell you how to get there... when you'll get there... and smooth your journey with expert advice.

Ask for attractive booklets on vacation spots. Ask about improved travel equipment—the modern sleepers, restful lounge cars and low-cost deluxe coaches of Canadian Pacific trains. Canadian Pacific travel is as dependable as the friendly service of your own Canadian Pacific agent.
